

OUR ROADS
WILL CONVERGE WITH YOURS

Electric Vehicles

WE ARE ON THE ROADS
For a cleaner world

NEW IDEAS AND CHANGING NEEDS ARE **EXCITING FOR US**

Since 2011 we have been a driving force in electric energy for achieving a cleaner world.

Our reason for existence is to be a leader of technological design and sustainability in business and city life. Our cars generate their energy from electricity and we generate our energy from producing solutions towards changing the world.

With our comprehensive design and R&D studies, we produce PILOT CAR vehicles with superior care and hard work through integrated production lines in our own facilities.

With the experience we have gained since our establishment we have produced thousands of electric vehicles, such as golf carts, service carts, vans, ambulance vehicles and gastrocars. You can easily integrate these vehicles in your everyday life.

We are excited by new ideas and changing needs, so we can design and manufacture our cars exactly to your demands and desires. We have production facilities in Turkey and the United States, offices in Germany and Bulgaria, dozens of engineers and an extensive service network. With our customers' passion for PILOT CAR, we continue to grow and gain mileage with each passing day.

THE WORLD SHOULD STAY **YOUNG LIKE US!**

SUSTAINABLE LIFE

PILOT CAR is developed in such a way that, while offering you practical solutions in your daily work and social life; at the same time it is responsive for the environment which we are a part of. It is an important actor of the concept of sustainable life which is necessary for all living things.

"0" EMISSION

For protecting the environment and a more livable world, PILOT CAR manufactures only 100% Electric Vehicles.

WHY PILOT CAR?

Our choices that change within the axis of developing technology and transforming life standards, promotes us to use Electric Vehicles.

STAND OUT FROM YOUR NEIGHBOUR

Be prepared to be seen with envy because we're pretty cool.
Splendor and performance are our business.

PILOT CAR always impresses.

IT'S TIME TO DISCOVER

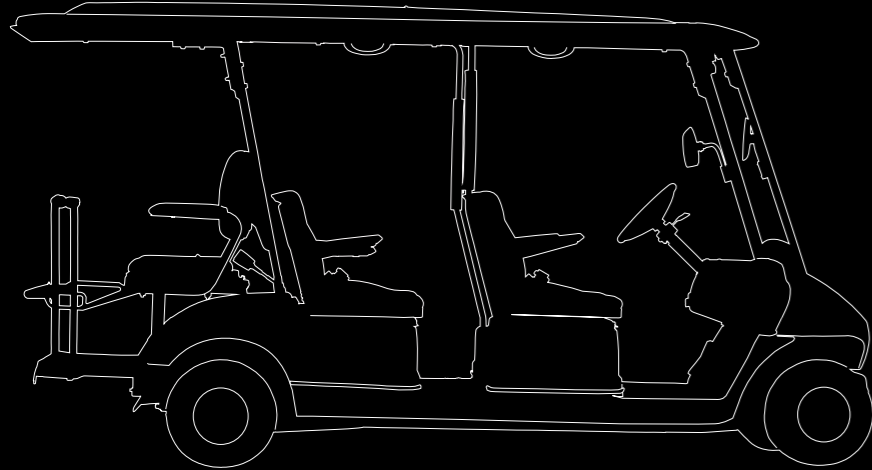

When you get behind the wheel you will experience enhanced grip, ergonomic design, high maneuverability and durability, as well as easy access to spare parts and maintenance.

This is exactly what PILOT CAR was made for.

OUR INNOVATIONS TURNS INTO OUR HABITS

If you are going to add an innovation to your life,
all details of it should be thought and designed.

Each one of the "PILOTCAR" we have manufactured
since the year of 2011, is manufactured as taking
high technology, advanced engineering, integrated
production, accuracy and particularity as the basis.

To be able to offer you the comfort and matchless
quality as a perfectionist engineering work...

" THAT'S WHY **PILOTCAR** WAS BORN! "
